

LOVE IS GREATER

Stop Hate At Pride Events in Canada

The hate group holds banners like the ones in this photo. They often use a megaphone or other type of amplification to harrass people in public spaces.

Hello! We are a decentralized LGBTQAI2+ and Allies collective made up of people from across Canada. There is a hate group which has been violently targeting our Pride Events. When you see them, they may seem like a few random haters holding ugly signs filled with bible quotes and hateful nonsense, but they are in fact highly-organized, and some members are considered dangerous. Many of this hate group's ringleaders come from the US to train and recruit new members in our communities. To learn more about who these extremists are and what you can do to help limit their activities, please visit our website (see below). Also, if you have any information on this group including photos or video, you can easily send your files to us using your phone or computer.
